

Digisoft H10 A9 Lockbox Kit

Brighter, Reliable, Extensible Education

WE DELIVER

- We deliver for governments and NGO's
- Reliable practical equipment that will allow you to **go anywhere and teach anything**
- Our Equipment is in Mali, Malawi, Nigeria, Cameroon, Ethiopia, Kenya, Uganda, Ghana, Burkina Faso, Egypt, Comoros Islands, India, Madagascar, Benin, Togo, Morocco, Sudan, Ivory Coast, Niger, Tanzania and more helping to educate millions of rural people.

Who Uses The DCS Systems

MINISTRY OF FOOD & AGRICULTURE

Portable Solar Solutions

- No long term costs, no subscriptions, or generator costs to run it
- Portable, dustproof, shockproof and waterproof case
- The system was created to fill a gap for educators who want to use quality ICT products in areas where there is not electricity or connectivity. As such it is used by governments and NGO's to teach rural communities farmers and school based education.
- The kit is portable, comes in a lockbox which is waterproof and dustproof. It allows you to use Word, Excel, PowerPoint, download apps from google, use offline apps like the Access Agriculture app with 3500 videos. Show videos to large groups and connect your phone or PC to the system wirelessly. Think of it as a Computer and Projector in one.

Extensible

- The system comes with accessories, the Power Bank and Solar Charger used together will keep the system running all day every day you have sunshine. The lens in the projector is good for over 30,000 hours so it's good for over 7 years of continuous use. It comes with a Bluetooth speaker loud enough for a large audience which you can connect by audio cable or wirelessly. Lastly wireless keyboard and tripod. The Access Agriculture disc is a 500 Gb flash drive with an app that plugs and plays with the system. It can be updated without cost by simply going online and downloading the latest agricultural training videos.
